Bao Jia Hu System 保甲户

https://en.wikipedia.org/wiki/Baojia_system

It started in the Song Dynasty by Wang Anshi as a way to create a community-based system of law enforcement and civil control. It was used in various forms throughout Chinese history during the Ming and Qing Dynasties until modern day Republic of China which adopted a three-level system of 10 HUs 户 (or households) make one Jia and ten JIAs $\mathbb P$ makes one Bao $\mathcal R$. So each Bao $\mathcal R$ basically has 1000 households.
